

*Perdersi nella semplice bellezza del paesaggio... In un'ansa verde e azzurra sul versante occidentale dell'isola, dove il respiro del bosco incontra la brezza del mare, la spiaggia di Sant'Andrea si ritaglia uno spazio tra gli scogli scultorei che si spingono fino alla piccola insenatura sabbiosa del Cotoncello... Un posto speciale dove abbandonare, per qualche tempo, le ansie del vivere quotidiano...*

*Surrounded by the simple beauty of the landscape... In a green blue corner of the western part of the island where the breath of the woods meets breeze of the sea, the beach of Sant'Andrea has managed to carve a little space for itself between the sculpted rocks that reach along as far as the little sandy cove of Cotoncello... a special place where, for a short time, the worries of daily living can be left behind.*

*Cercarsi nei colori e nei profumi della campagna...*

*Cercarsi nei colori e nei profumi della campagna... Come un tempo il sentiero che dall'Hotel Gallo Nero porta al mare attraversa gli antichi terrazzamenti coperti di essenze mediterranee, alberi da frutto e orti coltivati con amore... La semplice discesa verso la spiaggia, attraverso questo giardino dal sapore antico, permette di scoprire una dimensione della vacanza da vivere con i ritmi della natura...*

*Searching through the colours and scents of the countryside... it is there as it has always been, the pathway that leads down from the Hotel Gallo Nero to the sea, through the ancient terraces covered by the Mediterranean scents, fruit trees and vegetable gardens all the labour of love... that simple descent towards the sea, across these gardens of traditional tastes, allows us to discover a dimension of a holiday that should be enjoyed alongside the rhythm of nature.*

## Mediterranean Country Hotel

Riconoscersi nella cura dei dettagli...

Awareness of the care for detail... the Gallo Nero Hotel started off as an elegant country house and this is why the particular style can be found in the little details that make every part of it unique and original. Therefore, every room has its own personality, but every one guarantees the same level of comfort with air conditioning, a little fridge bar, a hairdryer, Satellite television, free Wi-Fi, safe, telephone, balcony, terrace or garden; most of the rooms are facing on to the sea and on the large Mediterranean garden.

Sorrendersi nella scoperta dei sapori...

Surprise yourself with the discovery of tastes... The kitchen serves typical Tuscan dishes and flavours of the Elban traditional cuisine with recipes that use local produce and aromatic herbs from the island of Elba: we also have many carefully selected Elban wines in the wine cellar of the hotel. The evening meal, which is served in the fascinating fan-shaped dining room, becomes an unforgettable moment when the setting sun tints the sea and the horizon with strokes of orange and shades of gold.
